A

LL goods shipped with the understanding that the customer may return them within ten days if not entirely satisfactory as far as construction or finish is concerned.

We do not, however, assume the risk of damage or breakage in transportation.

FR EIGHT rates from Neillsville to points west of the Mississippi River, with few exceptions, are the same as from Chicago. To points east of the Mississippi River there are some differentials which, however, are guaranteed not to exceed $17\frac{1}{2}$ cents per hundred pounds.

We make up mixed cars to distributing points at short intervals and give our customers the benefit of the carload rates to those points.

Carload rates from Neillsville are as follows: To Minneapolis, $17\frac{1}{2}$ cents; Chicago, $17\frac{1}{2}$ cents; Kansas City, St. Joseph and Omaha, 30 cents; St. Louis, $26\frac{1}{2}$ cents.
